"End Of The World"

Everything we've known has gone up in smoke,
I can tell we won't last very long. It's so wrong
The clouds are falling from the sky
And people are asking themselves why they even tried
We know by now it's coming to an end,
It's so real, we can't pretend...
One by one, it all is falling down,
And I'm getting the hell outta town

When all is said and done
We know we've had our fun
But now our time has come
So kiss me goodbye
But don't ask me why
It's the end of the world
The end of the world

Mothers holding their children tight
People running for their lives
End, tonight.
Bombs are falling, rain is pouring
What did you do?

When all is said and done
We know we've had our fun
But now our time has come
So kiss me goodbye
But don't ask me why
It's the end of the world
The end of the world
