When you open your eyes, it's not much clearer
Then before, and I can feel ya
Against me, our hearts are pounding
To the beat of everything we're feeling now

So much to say, but so little time
I'm gonna make it last, I'm gonna make you mine
The mood is set low, I'm not so sure on where to go
Show me the way and I'll never let you go

Take my hand, and show me where to be
Step into the dark, I can't see a thing
All I can hear is you breathing
Turn off the lights, and get close to me

I've never felt this way before
Our clothes are scattered all over the floor

Don't let, don't let, don't let
Don't let this feeling ever end
Don't let, don't let, don't let
Don't let this feeling ever end

Take my hand, and show me where to be
Step into the dark, I can't see a thing
All I can hear is you breathing
Turn off the lights, and get close to me
