Girl

I know that I've been wrong many times before
Time passes by with love in sight
Why can't we recall

Sacrifice myself but I still feel the pain
It's all in vain gathering all thoughts of the past
Why did we loose it all so fast
It's so far gone and long since gone
Gathering my heart will stay true

And all I want and all I need
Capture your soul to keep
All I want and all I need
Is to capture your soul to keep

Mist dimmed light walk with me until the end of time
Time passes by in the heat of the night
Brings you near in sight

Sacrifice myself but I still feel the pain
It's all in vain gathering all thoughts of the past
Why did we loose it all so fast
It's so far gone and long since gone
Gathering my heart will stay true

And all I want and all I need
Capture your soul to keep
All I want and all I need
Is to capture your soul to keep
