

Midnight Sun "Black Night"

Visit "[Black Night](#)" on MotoLyrics.com

Just like a moving target
In a street fight
We were both just prisoners
Of a long black night
We learned to gamble
A dangerous game of love

In the black night we go
On the wings of tomorrow
In the black night we go
On the wings of tomorrow

Like two strangers
Feeling rage and pain
We still believed in
Lead a painless game
The life you'd been giving
Both pleasure and pain

In the black night we go
On the wings of tomorrow
In the black night we go
On the wings of tomorrow

Walking the streets of silence
We'd seen the flames
And the madness

In the black night we go
On the wings of tomorrow
In the black night we go
On the wings of tomorrow
