I can't escape living in the past  
The price was high was I right that time  
No control I was so alone  
The memories I don't believe in destiny  
Dirty sheets and a bad old smell  
Why does everything always have to go to hell  
No disguise I can see it in your eyes  
Living in a street of dreams things ain't always  
What they seem

Front page news win or loose  
Over night sensation life is cruel  
Front page news win or loose  
Over night sensation your nothing but a fool babe

Life has past us by I still remember  
When I was a child no control I was so alone  
All the memories I don't believe in destiny  
Don't you remember our first night together  
Why did it all go wrong I'm not that strong  
I'm not carved out in stone

Over night sensation life is cruel  
Front page news win or loose  
Over night sensation your nothing but a fool babe
