

Midnight Sun "Hold Me Back"

Visit "[Hold Me Back](#)" on MotoLyrics.com

Lonely nights so lonely
I've been such a fool
An innocent cry
From a desperate child
There was a time
When I made you feel like never before
But where did those days go

Don't hold me back now don't turn away
The love we had just can't be found
Time can't erase all the things we had
The love we had can't be found

I'm broken hearted
I got no time to think
I was a trouble boy

There was a time
When I made you feel like never before
But where did those days go

Don't hold me back now don't turn away
The love we had just can't be found
Time can't erase all the things we had
The love we had can't be found

There's a storm raging in my heart
I wanna make a new start
In this dream it could be this way
Little angel no no no no no

Don't hold me back now don't turn away
The love we had just can't be found
Time can't erase all the things we had
The love we had can't be found
