If your faith is weak, and your heart is not strong
Remember where your soul belongs.

Domination of your mind, is the quest of our time
We'll correct you if your path is wrong

We're fire, through ice, a desire to metalize

We are Metal Gods in a Metal world
In glory you'll praise our names
Through fire and ice, we will keep our paradise
Protected from the deadly game

Hail our holy names when you're trapped in evil flames
Scream and shout it out loud
We ride the lightning, we touch the sky
Buckle up cause we gonna fly high
