

Midnight Sun

"Metal Will Stand Tall"

Visit "[Metal Will Stand Tall](#)" on MotoLyrics.com

I'm moving on, I'm moving on, we're moving through
time

We're thunderous, mysterious, and glorious
We born to, born to, born to raise some hell
The world, the world is tied to a ball and chain

To a ball and chain... Oh yeah...

Made of steel we fly, like an eagle in the sky.
We're on the move, and we will prove.
We are the strongest of them all.

Made of steel we fly, like an eagle in the sky.
United we stand, raising our hands.
Nations fall, metal will stand tall.

We crash and burn we hit and run, we make a stand.
From the ash into the fire, we see a phoenix rise
