

Midnight Sun "Name Of Love"

Visit "[Name Of Love](#)" on MotoLyrics.com

I can't go on live the life we do
Why can't we talk
You just cry let's make things right
Stop all the anger
I can't believe that you wanna leave
When you now girl that it hurts me so
I've seen right through your act
I know I can't hold you back

Hey girl stay in the name of love
Cause my heart is crying
Hey girl stay in the name of love
There's something dying something dying

There was a time we had it all figured out
We were so strong
Those days are gone when we were one
Wont give you up
I've seen so many times before
You'd through your key right out the door
I've seen right through your act
I know I can hold you back

Hey girl stay in the name of love
Cause my heart is crying
Hey girl stay in the name of love
There's something dying something dying

Where have all the problems gone
Oh my darling
We will spend eternal time

Hey girl stay in the name of love
Cause my heart is crying
Hey girl stay in the name of love
There's something dying something dying
