

Midnight Sun "Steel To Steel"

Visit "[Steel To Steel](#)" on MotoLyrics.com

Thunder and metal are shaking the ground
The warlord is calling your name
Fight for your glory, and fight for your king
Into the battlezone, fight for the ring

Brothers of metal, stand up for your rights
Prepare yourself for an endless fight
Living in fear ain't living to us
Sway your sword high, like Jack the Muzz

Oh... the revelation comes
Provide us with thunder

Steel to steel
Steel to steel
Hold your hammer high
Steel to steel
Steel to steel
The gods are waiting in the sky

From the battle we come to the battle we ride
High and mighty we stand
We ride like thunder, we are punishment and pain
The weak ones bleeding in the rain
