Dark angel with thine aching lust to rid the world of
existence
Malicious angel do what you must burn and kill all
worlds resistance
Because of thee no thought, no thing can possibly
breathe in the lights embrace
Dark angel ever on the wing riding with such beauty
grace

When darkness greets, then changes you... Your silvery
to a sultry fire.
Nor will thine blackest heart allow, delight intortured by
desire.
Through thee the ones who seeks shall learn and in the
end be payed what they earn...
Dark angel with thine arching lust malicious angel do
what you must

Because of thee, the law of dreams becomes a
gathering place for fears
Unlit tormented slumber seems one vehemence of
useless tears
When sunlight glows upon the flowers or ripples down
the dancing sun
Thou, with thie trows of darkest powers takes my life,
sets me free

Within the breath of autumn woods, within the winter
silences
Thy venomous spirit stirs and broods, o master of
impieties...
The ardour of red flame is thine and thine the steely
soul of ice
Dark angel with thine aching lust, malicious angel do
what you must

Thou art the whisper in the gloom the hinting tone, the
haunting laugh
The breathing darkness inside me o, may your will
forever be
The second death that never dies that can not die when
time is dew

Live death, where in the lost soul cries
Eternally uncomforted

Dark angel with thine aching lust, malicious angel then
prepares...
Make all chance to drifting dust, with thine eternity of
cares.
