You're off base
Out of line and in my face
Brace yourself
I'm coming through
And before you know what's hit you
You'll have heard my point of view

Trash is trash
Have I got your attention?
There's more that you should know
There's more I've got to mention
You've got to let it go

I was a child, another time, another place
Only a child would carry this so far
You're still in my face
I held it back, I was afraid
Didn't want to blow your cover
But I was on to your charade

Trash is trash
Have I got your attention?
There's more that you should know
There's more I've got to mention
You've got to let it go

Bronzing the garbage
There was a time I was impressed
Through all the garbage
It's still not you that I detest
I hate the way
You can't forget, I hate it so
Bronze what you want
But you've got to let it go

Have I got through?
Have I got through to you?
Gave it a shot
Finally got to state my case
If you've heard nothing, please hear this
Don't get in my face

Trash is trash, ah, trash is trash

Bronzing the garbage
There was a time I was impressed
Through all the garbage
It's still not you that I detest
I hate the way
You can't forget, I hate it so
Bronze what you want
But you've got to let it go

Have I got your attention?
There's more that you should know
There's more I've got to mention
You've got to let it go
Have I got your attention?
There's more that you should know
There's more I've got to mention
You've got to let it go
