[Chorus]

Don't pick me up, just to knock me down,
Don't leave my heart lying on the ground.
Don't need a love that slips around.
Don't pick me up just to knock me down.

You give me love now that's alright.
We all need it it's true.
But what I really need from you, is that you'll say,
You're gonna stay with me.

[Chorus]

Don't pick me up, just to knock me down,
Don't leave my heart lying on the ground.
Don't need a love that slips around.
Don't pick me up just to knock me down.

You picked me up when I was on my own,
Just when I thought that I was through,
But now you've gone and left me all alone,
Cryin' the blues, every night for you.

[Chorus]

Don't pick me up, just to knock me down,
Don't leave my heart lying on the ground.
Don't need a love that slips around.
Don't pick me up just to knock me down.

Don't pick me up just to knock me down, no no,

Don't pick me up just to knock me down.
