My skin fractured
Cause of all I kept inside
For so long got out in the open
Like a snake changing skin

I'm fragile
I'm so fragile within

What was before
Is everything now
Here I am
Without my skin in flesh in blood

Crawling along the highway of life
Was filled with pain
It left scars, that fractured my skin
I'm so fragile within

I'm fragile
I'm so fragile within

What was before
Is everything now
Here I am
Without my skin in flesh in blood
