Do Do Do...

Let me fetch the rocky road and your favorite pair of
sweats

And those little chocolate kisses that you like

The remote control, baby step in bed

Cause when your feeling low I just want you to know
that I

Chorus

Still Think your beautiful (and I)

Still think your wonderful (though I)

Though I I'm still just a man and I never understand

I'll still try(3x)

Let me rub your tummy girl

Read you something funny girl

I'll run your bubble bath

When it makes you mean

I'll treat you like a queen cause I

Repeat Chorus

I still think your beautiful and I

Still think your wonderful though I

Though I'm still just a man

And I never understand

I'll Still Try - Repeat out
