"Just As Much"

Visit "[Just As Much](#)" on MotoLyrics.com

It's just as much His positive outlook As much as it's It's
a skeptical view An awkward end His sub-social
standings But he's the first one home Admit that that's
true It's just as much knuckles and guts As much as it's
his gentleman's touch So much might be too much to
mention It's just that he's given so much. So much is
just so hard to fathom So hard to fathom where to
begin Begin with as much as you can imagine Imagine
so much if it's him It's just that he's given so much. It's
just as much! The pride and sarcasm As much as it's!
Compassion and support Loyalty! Beyond what is
called for Above and beyond That's the long and the
short It's just as much knuckles and guts As much as
it's his gentleman's touch So much might be too much
to mention It's just that he's given so much. So much is
just so hard to fathom So hard to fathom where to
begin Begin with as much as you can imagine Imagine
so much if it's him It's just that he's given so much.
When you've got it down to a science You can't set the
science aside There's a pride comin' from the alliance
And an alliance that comes from the pride Sometime
you've gotta stand in defiance Sometime you gotta
take it in stride I've got a friend who's always there
when I need one And that, my friend, can't be denied.
It's just as much knuckles and guts As much as it's his
gentleman's touch So much might be too much to
mention It's just that he's given so much So much is
just so hard to fathom So hard to fathom where to
begin Begin with as much as you can imagine Imagine
so much if it's him It's just that he's given so much.
