### "Secret Garden"

There is a secret garden in the morning mist  
Filled with red roses  
Hope the sun will clear the shades  
So the secret garden of love can show it's beauty

Wind through the trees you sang  
In a field of roses  
They danced the night away

There is a secret garden in the morning mist  
Filled with red roses  
Hope the sun will clear the shades  
So the secret garden of love can show it's beauty

Wind through the trees you sang  
In a field of roses  
They danced the night away
