Down the street, around the corner
Over the bridge, that dirty water
College campus, mighty minds and a reactor right
behind
Passed the candy factory, Salvation Army
Fire station through the square
I hate that place up the stairs

Next the doors, they never work I never let that bother
me
And I hope some worker's not disgruntled
I hope there's something there for me
An old man reads the paper loudly everyday now for a
year
Stamp machines and wanted posters here again, again
I'm here

Now it's 737 almost everyday!
737 well I want you to say!
737 and everyday!
737 almost everyday!

Nice to know that someone hears us
It's good to know somebody's there
Taking the time to say hello
Taking the time to show you care
Write again and thanks again from the bottom of my
heart
See you soon and till then 737 is a real big part

I've been down the last time, stretchin the finish line
Shoe glue what can I do?
A man's not well dressed if his shoes are a mess
Rock and Roll I've got a hole right in my sole
Let's rock! It's fucking my walk and soaking my sock
Who knew? It's not stopping my step or stepping my
stop
We've got it up and we won't let it drop
Beer here, don't wanna see clear
I see no point in wrecking the joint
We're here to quench our thirst a bit
But we won't get the worst of it

Turn it up more than a notch
Like a punch to the face or a kick to the crotch
All night never ender benefiting from a bender
If nothing's worrying you, that's the key
Cause nothing's worrying me
And nothing's worrying me...
