"That Bug But Me"

Visit "[That Bug But Me](#)" on MotoLyrics.com

That bug bit, I'll admit
Stunned - it took a while to hit
But when it hit me, I was bit
Shit, I came clean with it
No match, who am I
No match, who am I, so why to deny it
Just a regular guy, who won't even try it
The bug's been around
Since time began
It's bitten bigger
Badder bastards than the one I am
It can cripple
And it can paralyze
When I felt its tooth
I told the truth to my surprise
I saw the bug and I gotta say
Ahh

I tried to get away, I tried to run, I tried to fight
But the bug was there to bite
No match, who am I?
Must respect the insect, it injects and it infects
If I may interject, I love the effects
The bug's been around
Since time began
Its bitten bigger
Badder bastards than the one I am
It can cripple
And it can paralyze
When I felt its tooth
I told the truth to my surprise
