### "The Daylights"

Visit ["The Daylights"](#) on MotoLyrics.com

Darkness scared the daylights out of me last night  
But by the grace of God I had a goal  
To make it to the middle of the morning light  
And safety saving sanity and soul

Do everything that we want to do  
Try everything there is to try  
There's nothing out there stopping me or you  
Do everything before we die

Sanity worth saving well I'm not so sure  
A soul is somewhat suitable to save  
Feelings I had felt from falling on the floor  
Good God I'm getting ready for the grave  
The hour was the witching one when I first felt  
The power of the darkness I was in  
Triple six gun shooters in the bible belt  
Something took me somewhere where I had never  
been

Do everything that we want to do  
Try everything there is to try  
There's nothing out there stopping me or you  
Do everything before we die

It takes a rude awakening from time to time  
Like the one that scared the daylights out of me  
To make you take a look and shake you when you  
should be shook  
And take you to the place that you're supposed to be

Do everything that we want to do  
Try everything there is to try  
There's nothing out there stopping me or you  
Do everything before we die  
Do everything every little thing let's do everything  
before we die.
