"The Old School Off The Bright"

Visit "[The Old School Off The Bright](#)" on MotoLyrics.com

Bring in the skins with the pins and the patches on their flights

The rovers with the clovers who've spent far too many nights

Out with us till closing time, we hope we're not imposing on you

Get the crew together, it's the old school off the bright

Flush the boys out of Dot, we're gonna need them there

Tell the trouble-makers that hang out in Harvard Square

We need every able asshole, every asshole you can spare

We're going off the bright, invite them to this fine affair

Tell the Irish in Southie and the South End Puerto Ricans

The North End Italians and the wind bags up on Beacon Hill

There will be no tomorrow, it's going down tonight

Get the crew together, it's the old school off the bright

We want the punks, the drunks, the layabouts, the steady working joes

The white collars, the rednecks and our blue blooded bros

The jocks, the preps, the stoners, the homeless, and homeowners

Every loser, boozier, drug abuser, sharpie and Two-Toner

We'll take the jills and bring on the jacks

From Forest Hills all the way to Father Mac's

The rude girls and the rudies, don't fail it's your duty

'Cause tonight will be the night

Get the crew together, it's the old school off the bright

It's the old school off the bright

It's the old school off the bright

Get the crew together, it's the old school off the bright
