How can I operate with you in the way
You've given me exactly no choice today
How can I think with those cameras in my room
You've given yourself to certain doom
I know the things that you cannot see
If you knew you then I bet that you wouldn't like me (x2)

Chorus

If it wasn't loud enough the last time, G E T O U T now
(x2)

Chorus 2

The cranial investigations
Fool yourself with cheap vibrations
I'm flattered by your fascination
But all you want is our affiliation

I tried 911 and they won't take my call
And I'm not alone in my house at all
I think I need to get out to my car
This is when being famous just goes too far
I know the things that you cannot see
If you knew you then I bet that you wouldn't like me (x2)

Chorus

Chorus 2 (x2)
