The bells, the bows, the flashing lights,
the mistletoes and the 'Silent Nights'--
It's all for show, but that's all right.
That's not why I love this time of year.

This time of year,
It gets me, and never lets me
Act like I don't care.
This time of year,
Is my favorite time of year,
'Cause all of us are here together.

The stores are packed
With stuff for us to by.
The shelves are stacked
A mile high...

But let's get back
To what I love about this time of year.

It gets me, and never lets me
Act like I don't care.
This time of year,
Is my favorite time of year
'Cause all of us are here together.

There's crap - it's true -
What can you do?
It's simply spending it with you
That keeps me looking forward to
Lookin' forward to this time of year

It gets me, and never lets me
Act like I don't care.
This time of year,
Is my favorite time of year
'Cause all of us are here together.
