Excuse me sir may I shake your hand
Would you like to know our plan
I don't want to work hear any more
This job is a stress and a bore
I am used and abused
I am just a working hero
I am used and abused
I am just a working hero
I am used and abused
I am just a working hero
I'd go for a burger at Mcshite
Even tough it'd taste alright
All our bosses think that there so funny
Just because they wipe there arses
With their own money
I am used and abused
I am just a working hero
I am used and abused
I am just a working hero
I am used and abused
I am just a working hero
Excuse me sir but were out of stock
Would you kindly fuck off to another shop
Give me your little hands
Break your (4ft) Fingers 'cas you don't understand
I am used and abused
I am just a working hero
I am used and abused
I am just a working hero
I am used and abused
I am just a working hero
I am used and abused
I am just a working hero
I am used and abused
I am just a working hero
I am used and abused
I am just a working hero
I am used and abused
I am just a working hero
