Chorus

You say, it's time, to finally peel away
I say, it's not, this glass is here to stay
You say, that's fine, but your dead ends are showing
I say, I'm caught, and just where are we going?

Lever muscles twitching in excitement
2-D smiles frozen in delightment

Chorus

Everyone is happy at the first glance
Empty eyes staring at the hook dance
Everybody shuffles in a weird trance
Everybody's dying for a second chance

Chorus

You say, it's time, you say the Jaws are here
I say, they're not, and let me make this clear
You say, that's fine, you can't escape this building
That day, I died, I think The Office killed me
