"Zombies Ate My Neighbors"

Visit "[Zombies Ate My Neighbors](#)" on [MotoLyrics.com](#)

What the heck is wrong with me?
I'm looking out but I can't see
The neighbors died of some disease
And look now they've become zombies
Zombies ate my neighbors (x4)

What the heck is wrong with me?
I'm looking out but I can't see
The neighbors died of some disease
And look now they've all become zombies
I need my water gun right now
And put an end to my dying town
Get the rocks and do not clown
These zombie fucks are going down

Chorus
Zombies ate my neighbors (x4)

Screaming loud in the hedgemaze
This is a bloody game we play
We were attacked by plants today
But werewolves have got me afraid
There is a man called Doctor Tongue
And he just survives to have sick fun
Only armed with my water gun
I must do my best to save everyone

Chorus
