Hold it down hold it down (x2)
Slow it down slow it down (x2)
Is it?

Hold it down hold it down (x2)
Slow it down slow it down (x2)
Is it?

Hold it down hold it down
I wish I could just slow it down

(Verse 1)

Just calm down
I'm blowing this whole thing way out of proportion
Breath! And be cool!
Hold this down
But my heart's banging like an 808 (Boom!)
And you'll be here soon

(Bridge)

And I bite my nails anxiously waiting for you
I pace back and forth wondering what I'm gon' do
You were the one girl that got away
And I promise myself I'd ask you one day

(Chorus)

Tell me is it obvious that I (that I)
I've still got the biggest crush on you
Every time you smile I blush
What can I say
What can I say, is it plain as day?

(Verse 2)

I admit, that all this time I thought that I would be over
This little crush I feel for you
I feel something for you and your pretty face
I can't concentrate, and my knees they shake
But I still can't wait

(Bridge)

And I bite my nails anxiously waiting for you
I pace back and forth wondering what I'm gon' do

You were the one girl that got away
And I promise myself I'd ask you one day

(Chorus)

Tell me is it obvious that I (that I)
I've still got the biggest crush on you
Every time you smile I blush
What can I say
What can I say, is it plain as day?

Hold it down hold it down (x2)
Slow it down slow it down (x2)

(Verse 3)

I've been here before so it's nothing new
I feel like a little boy back in school
Just play it cool, take it nice and slow
And don't blow it by letting her know

(Chorus repeated)

Tell me is it obvious that I (that I)
I've still got the biggest crush on you
Every time you smile I blush
What can I say
What can I say, is it plain as day?
