Visit "[Thanks To You](#)" on MotoLyrics.com

Without spite in my tone
I'll admit when I'm alone
I think of you (I think of you)
From time to time (yeah)
But don't groan as I 'fess
And imagine I'm a mess
Cuz what iv been feeling at best is gratitude
And the question
You may ask:
Is despite our past how I can act this way?
Looking back
I guess it wasn't so bad
Darlin all I have to say
It's

Thanks to you
Now I got a heater (thanks to you)
She love how I treat her (thanks to you)
And I love that she keeps up so them haters can't see
us (thanks to you)
Uh uh uh we match up, we match up (thanks to you)
We match up, match up (thanks to you)
We match up, match up (thanks to you)
Gingerbread love catch up, catch up

Now I'll admit that I'm quite content
Cuz she cured me of resent
I had for you, I had for you, I had for you
How?
Cuz she my home girl
We in our own world
Cuz she the business
Can I get a witness, wait, OOPS!
Forgive me I'm afraid,
I got carried away
What can I say?

You may ask:
Is despite our past how I can act this way?
Looking back
I guess it wasn't so bad
Darlin all I have to say

It's all

Thanks to you
Now I got a heater (thanks to you)
She love how I treat her (thanks to you)
And I love that she keeps up so them haters can't see
us (thanks to you)
Uh uh uh we match up, we match up (thanks to you)
We match up, match up (thanks to you)
We match up, match up (thanks to you)
Gingerbread love catch up, catch up

Take this time to let it marinate
(just think about it babe, just think about it baby)
Either way, (either way) we're meant to mix our fate
Deep down you know it's true
That it's all thanks to you

Thanks to you
Now I got a heater (thanks to you)
She love how I treat her (thanks to you)
And I love that she keeps up so them haters can't see
us, no no no (thanks to you)
Uh uh uh we match up, we match up (thanks to you)
We match up, match up (thanks to you)
We match up, match up (thanks to you)
Gingerbread love catch up, catch up
Thanks to you
Now I got a heater (thanks to you)
She love how I treat her (thanks to you)
And I love that she keeps up so them haters can't see
us (thanks to you)
Uh uh uh we match up, we match up (thanks to you)
We match up, match up (thanks to you)
We match up, match up (thanks to you)
Gingerbread love catch up, catch up

Thanks to you
And it's all thanks to you
Thanks
