So high, there's a fly
It's got me bitchin', it's got me bitchin'

It's got me snitching, bitching, there's a fly on the ceiling
It's giving me an annoyed feeling
It's got me lifted and I just shifted
Who can get rid of the fly?
Could you please get rid of the fly?
Could you please get rid of the fly?
Could you please get rid of the fly?
Could you please get rid of the fly?

You know I'm back home for the day
Was chilling in LA
Then I heard a sudden buzz
So I went out to see what 'twas
Suddenly on my white wall
I saw something black crawl
I screamed like a girl
Just kidding, I went over there with a twirl
'Cuz you know ho wit goes, I'm very groovy
There was a monster as big as in the scariest movie

It's got me snitching, bitching, there's a fly on the ceiling
It's giving me an annoyed feeling
It's got me lifted and I just shifted
Who can get rid of the fly?

Could you please get rid of the fly?
Could you please get rid of the fly?
Could you please get rid of the fly?
Could you please get rid of the fly?

Now I ain't worried by a fly, cuz I'm bad ass
I once crushed an ant while rolling in the grass
There ain't nothing you can say to get me scared
It ain't like them fly is gonna make me seem like I cared
But then the fly comes close as he's in the air
Mothason, he is now in my hair

I ain't digging that as I just used my Hair & Shoulders
So I tried to exterminate it with a bunch of folders
But the fly didn't want to die so we got in a
conversation
He told me all about his broken relation
I was like fly ya know what, Imma write you a song
Then my mama wondered where the hell it went wrong
So I said to my mama, flies have feelings too
Imma write that song, it's the least I can do, she said

It's got me snitching, bitching, there's a fly on the
ceiling

It's giving me an annoyed feeling
It's got me lifted and I just shifted
Who can get rid of the fly?
Could you please get rid of the fly?
Could you please get rid of the fly?
Could you please get rid of the fly?
Could you please get rid of the fly?

You know I'm back home for the day
Was chilling in LA
Then I heard a sudden buzz
So I went out to see what 'twas
Da fly is the only one who can understand
That our friendship is nawt the way it was planned.

You know I'm back home for the day
Was chilling in LA
Then I heard a sudden buzz
So I went out to see what 'twas
Da fly is the only one who can understand
That our friendship is nawt the way it was planned.

It's got me snitching, bitching, there's a fly on the
ceiling

It's giving me an annoyed feeling
It's got me lifted and I just shifted
Who can get rid of the fly?

Could you please get rid of the fly?
Could you please get rid of the fly?
Could you please get rid of the fly?
Could you please get rid of the fly?

This song is about love
About deep passionate love
Cuz baby flies will be flying
Flies will be flying
