Your attitude's nothing new
You be sticking it to me
So I'm sticking it to you, yeah

Your gasoline's filling me
I gotta get a grip on the wheel, yeah

You are in automatic living yesterday, okay
You go in circles like there is no other way, okay
My foot is on the gas
I can't help I'm going faster
My god I hate to hear it - okay, okay

Shut up
I'm pissed off
Back off
Don't be honking your head off
Shut up
F off
My breaks are burning
Will you shut up
I'm sick and tired of fighting that same stupid stuff so
Shut up
Don't you make me feel trapped
I'll be calling our thing a wrap

Your jealousy's fueling me
You be revving it to me
So I'm revving it to you, yeah

Your doubting me's a danger zone
Our relationship has gone off the road, yeah

I see the red light but you're driving me away, okay
Over and over you've got nothing else to say, okay
You're turning my ignition

What's with your reckless mission
My god I hate to hear it? okay, okay

Shut up
I'm pissed off
Back off
Don't be honking your head off
Shut up
F off
My breaks are burning
Will you shut up
I'm sick and tired of fighting that same stupid stuff so
Shut up
Don't you make me feel trapped
I'll be calling our thing a wrap

My engine's hot like there's a fire in me
When you're around I can't breathe at all, no, no, no, no
There's an explosion that is gonna take place
So you had better get out of my face, yeah

Shut up
I'm pissed off
Back off
Don't be honking your head off
Shut up
F off
My breaks are burning
Will you shut up
I'm sick and tired of fighting that same stupid stuff so
Shut up
Don't you make me feel trapped
I'll be calling our thing a wrap
