Black gangster(repeat 12x)

I met this out of town player who wanted to set up a trap  
He said he'd pay me and my boys if we would watch his back  
I told my other partner exactly where we kept tha sacks  
Then early in tha mornin' told em we got jacked  
I learnt to get what was mine before I hit tha scene  
Learnt to double-up my money before I turned 18  
At ten in tha mornin' if you pay me a visit  
You can catch me cookin' up dem chickens just like j.r.  
crickens  
My partner from new york he gave me a beak  
He need 9 on tha 13th at 20 a piece  
I copped 15 g's from my personal cut  
And he gave me five more and told me thats for wakin'  
him up

Chorus  
(black gangster 8x)

Verse 2:  
I got this worker on tha street sayin' he not gon' pay  
He say I'm fly at tha mouth and plus I shorted him weight  
I went right to his house on tha same day  
Knocked tha windows out his car say playa what chu' say  
Ain't nobody takin' form us e.p.v.'s(east point veterans)  
We'll wake tha whole house up for a set of car keys  
One time this old lady looked at me  
And say she see tha truth in tha strong young blood  
like it used to be  
I keep my stash and everything on lock  
And keep my business to myself and watch my back  
'cause thats all I got  
It's been like that ever since I was young  
And if anybody want some betta bring them a gun

And every player in this town  
Was talkin' bout' layin' him down

And said he settin' up his shop where we at, yeah right  
If you ever in the south and you doin' some dirt
