If I could find the words

I've got staples in my lips  
I got a sermon in my head  
Every time I speak  
I flip on my lip  
If I could find the words

I'm staring at the wall  
Looking for a line  
My tongue is numb  
Mumble jumble again  
If I could find the words

Anything is possible  
Another day is wonderful  
Follow me I'll take you there

If I could find the words

I'm a prophet on the hill  
With bumble bees in my mouth  
I've got a belly full of rhymes  
I'm always short of time  
If I could find the words

Anything is possible  
Another day is wonderful  
Follow me I'll take you there

Anything is possible  
Another day is wonderful  
Follow me I'll take you there  
Follow me I'll take you there
