Look at these little hands she said to me
So free and they need me
Look at these little hands I heard her cry
As they reached up for the shy
Towards her eyes

Life goes on there's another moment gone
But these precious memories will last forever
Life goes on there's another moment gone
You can see it right before your eyes
Life goes on

Look at these little hands I heard her say
As she fell down to her knees and smiled as she
prayed
Look at these little hands clench their fists and roll their
wrists
And make a wish

Life goes on there's another moment gone
But these precious memories will last a lifetime you see
Life goes on there's another moment gone
You can see it right before your eyes
Life goes on

You can always look
Look this world in the eye
And tell me what you think
Cause it's your story book
You turn that pages as you like
And tell me what you see

Life goes on there's another moment gone
But these precious memories will last forever
Life goes on there's another moment gone
You can see it right before your eyes
Life goes on
