She said if your going crazy then take me with you
How far can we go
We're all alone and no one else will know
She said what color are your sheets
Cause I'd sure like to know
And I said baby I won't sink that low

I won't take this as a one night stand
Cause I'm not just another man
To wrap around your finger
As you play with your hair
No that won't get you anywhere with me you see
Cause what you want means so much more to me

I don't wanna get you down tonight
But the way your body's moving
I can see your already getting down
By those moves your making
And those eyes I can't stop taking
I know exactly what I'm in for

Da da da da da da
Da da da da da da
I can hear you sing
Da da da da da da
Da da da da da da
