I did not meet you soul to soul.
I felt the kiss and missed the words that you spoke.
Your skin so soft and warm on mine,
Sighing like the best was done and gone.
And the way that I was playing it was just one
Night with you
Opened my eyes and you were smiling.
Oh darling I'm further and further and further
>From the way that I thought when we met.
Isn't it amazing to watch our love growing?
You know it takes my breath away yet.

Went lookin' in the city streets
And in the ways of the country
And all the time what I needed
Oh all the time just what I needed
Was lookii' to find me
Lookin' to find me
