"Lucky Man"

Visit "[Lucky Man](#)" on MotoLyrics.com

She don't like a man
Who tells her to trust him
She's been down that road
And through that land

She don't like to fly
She likes askin' why
She likes wearin' diamonds on her hands

Chorus:
She's got me wrapped 'round her finger
And all the love I could bring her
Would not be half as much as she deserves
She's been on my mind almost all of the time
And I swear that she straightens out my curves
I'm a lucky man, 'cause I got her

She drives me wild
With the faith of a child
And I don't know sometimes what she sees in me

She's been through so much
To have such a gentle touch
And I know deep down inside she believes in me

Chorus
