A new acquaintance I met last week  
used the word nigger in casual speak  
he said don't worry  
your not like them  
you may be Chinese but your just like me

Screw this I'm leaving  
I don't need a racist friend  
and I'm not like you  
I'm from Korea  
my eyes are small  
but your eyes are closed

another day, another emotion  
playing a game he called me a fag  
I said don't be an ignorant fool  
you must be gay with your prejudice rules

Screw this I'm leaving  
I don't need a racist friend  
and I'm not like you  
I'm from Korea  
my eyes are small  
but your eyes are closed

equate the words  
express yourself  
lift up your arms  
today, starting now this ain't no fabled story here now

Screw this I'm leaving  
I don't need a racist friend  
and I'm not like you  
I'm from Korea  
my eyes are small  
but your eyes are closed
