this case of love and anger  
your love is angering me more  
this church is full of people  
the pastor ask me how I have been  
cant say I'm perfect but the summer breeze is feeling  
great  
hats off to all the people  
my love is stronger all the same  
take time to ask me questions this brain is working over  
time  
hold in my true emotions?  
I'm nodding yes to all the lines  
will you accept her for the loving person all the time  
hats off to all the people  
my love is stronger all the same  
I'm quiet  
your angry  
your trust means more to me  
be thankful all the same
