The Train map reads in English today
traveling much easier I say
"suimassen, I'm not from here I'm not from there"
with out the English translations
I'm useless but I try to prove to you
standard markets wait in line

I'm looking forward to myself(feels like I'm not gone)to
pass the time
I'm looking forward to myself(feels like I'm not
gone)with foreign signs

learn boy from this rising sun 2 months of living here
under the gun
I can't equate the progress of my mourning state
without the English translations I'm useless but I try to
prove to you
standard markets/waiting line
hello/goodbye

I'm looking forward to myself(feels like I'm not gone)to
pass the time
I'm looking forward to myself(feels like I'm not
gone)with foreign signs
