Put your hand upon my chest babe, uh-huh
Do ya' feel my heart
I'm just flesh and blood and bone now baby, yeah
Like I told ya' from the start
Well I'm just a mortal man babe, uh-huh
Look into my eyes
There's a few things I can do for ya' girl
But I can't tell you goodbye

I can waltz across Texas
I can stop wild horses on a dime
I can rope that devil black tornado
For those ghost riders in the sky
I can tame the Mississippi
(Roll on Mississippi)
Like any other cowboy might
Just a few things I can do for ya' girl
But I can't tell you goodbye

Instrumental

I can waltz all across Texas
Reach Amarillo by mornin' light
I can leave the Hotel California
Sleep on a beach in Cheyenne tonight
(I can still make Cheyenne)
Make the thunder whistle Dixie
Like any other simple man might
Just a few things I can do for ya' girl
But I can't Tell you goodbye
Yeah I can do most anything for ya girl
But I Can't tell you goodbye
