### Verse I

Sun's comin' up over Houston  
A new day has already begun  
I'm startin' the mornin' with a question  
How can I undo what I've done  
And I see the answer in your eyes  
And in your arms babe there'll be no more bad  
goodbyes

### Pre-chorus

Rock me gently, rock me slow  
Fan the fire, don't let go  
It's you and me and a painted sky  
Never again will I make you cry

### Chorus

Point the wagon west and ride away with me  
We'll cross the Texas Plains, the mountains and the sea  
And when we've been around the world and back again  
You'll still be my woman and I'll still be your man

### Verse II

Sun's goin' down over Del Rio  
A long day has come to an end  
Finally given up on all these rodeos  
Tired of chasin' dreams on the wind  
And I see the lovelight in your eyes  
And in your arms babe there are no lies

### Repeat Pre-Chorus

Repeat Chorus

### Tag

You'll still be my woman  
And I'll still be your man
