henny with purple, mix it in the circle
side of that kush yeah â€¦ push

henny and purple, up in the sky
spinning in circles, chasing my life
henny and purple, henny and purple
henny with purple, mix it in the circle
side sider than kush yeah â€¦ push
henny and purple, henny and purple

got 4 homies in the ride now, ashtray on each door
yeah, trying to make it feel like it used to, â€¦
looking for, something to believe n
slow it down, down, down
see that clock ticking slow on the dash
picking up the beezers that we left in the past

henny and purple, up in the sky
spinning in circles, chasing my life
henny and purple, henny and purple
henny with purple, mix it in the circle
side sider than kush yeah â€¦ push
henny and purple, henny and purple

pushing bout 90 on the watch now
where's the liquor store?
we're gonna need 2 big bottles
cause we're out here looking for
something to believe in
see that clock ticking slow on the dash
picking up the beezers that we left in the past

henny and purple, up in the sky
spinning in circles, chasing my life
henny and purple, henny and purple
henny with purple, mix it in the circle
side sider than kush yeah â€¦ push
henny and purple, henny and purple

henny with purple, mix it in the circle
side of that kush yeah â€¦ push
and the player so high, feeling like i got wings

i'm floating in the sky, living like i'm in the dream
we going up and blowing up, smoke up in the air
drinking and we lighten up, it's a perfect pair
â€¦ with my partners, we leaning while we roll
fall deep in the slap and we looking for some more
let it go, roll up some more, pour up some more
after this i'ma be laid on the floor
wasted, but it's so good when you taste it
i'm addicted to this shit, might as well face it
can't shake it, white cup stay full
keep the blunt lit till i get the last pour
if you trying to feel good main, this will work
sleeping all day when i'm gone

henny and purple, up in the sky
spinning in circles, chasing my life
henny and purple, henny and purple
henny with purple, mix it in the circle
side sider than kush yeah â€¦ push
henny and purple, henny and purple.
