[Mike Posner]

Hey lady

If you've been looking for love in all the wrong places

Me too

Hey lady

If you've been telling yourself just to be patient

Me too

Just because I stand on the stage now

Just because I'm ill in the booth

Doesn't mean that I can't really love you

If you listen then I'll tell you the truth

I'm getting kinda tired of

Well, I spare you the details

But I got a little crazy with the females

The last whore, okay

And the one before but I'm tryna tell you

I don't think I want that no more, I guess

At least you know that I've got the experience

So when you're cool with it

You know I know what to do with it

Everything that you'd expected and more

Sex in the shower, on the bed, then sex on the floor

Rug burns on my knees, scratches on my back

You put those on my body to remind me to come back

(hehehe)

And for some reasons I do

I even eat it but thats just a secrets between me and

you

Hey lady

If you've been looking for love in all the wrong places

Me too

Hey lady

If you've been telling yourself just to be patient

Me too

[Twista]

Twista...Let's take it back to the basics

Looking for love in all the wrong places

All up in the party sippin' on ciroc

Was coming after women when I was

Spending big faces

Every night I'm in the zone
Doing what the fuck I wanna' do
In the hotel lobby like you and you and you
Until I met you
Make Twist, get the urge
Got it with you because I was sick with the words
Looking at you cause the picture was per-fect
Now the other chicks kicked to the curb
Sip cause I gotta' trip off the way
I was looking everywhere for love and I found it right
here
I'm Twista, lemme' get to know ya
Here is Mike Posner lemme' make it quite clear
You the only one that I wanna' be with
Tell everybody else that they can holla back
But all the other woman I was with I just splurged
But she the only one that bring the dollar back
Her sex so cold, got it froze
And its on a real, she the one I chose
Lovin her so all I wanna' say is M Pose
Tell her how you feel

Hey lady
If you've been looking for love in all the wrong places
Me too
Hey lady
If you've been telling yourself just to be patient
Me too
Hey lady
If you've been looking for love, looking looking for love
Me too
If you've been telling yourself just to be patient
Me too
