I never knew
I never knew that everything was falling through
That after all these years I'd still be calling you
To try to sell you on the thought of coming back to me

Baby girl
Yea you were my first
But you've always been my favorite girl
And I just so happened to break up with my latest girl
So I think you should come over and be my latest girl
Latest girl

All I know
Is I still feel the same way that I felt
So long ago
And even though I **** other girls
Now I don't want them, so
We can pretend that were right back in 2000 yo, 2000
yo

Everybody knows I'm still not over you
Not over you
And every time I lose a girlfriend
I call you
Ya I call you

Walk with me
I made a few more beats since the last time you done
talk to me
I got a few more connects in the game
But that's not all I need
Remember back in the day

You had a massive phone bill
From calling me
Why you stop calling me?

Remember babe
I wrote you all those love notes in 7th grade
I hope you threw those out when we went out separate
ways
Cause I don't want to see them up for sale on ebay

Don't put them on ebay

Everybody knows I'm still not over you
Not over you
And every time I lose a girlfriend
I call you
Ya I call you

You were my first girl
So wont you be my last girl
Hey first girl
Wont you be my last girl
You were my first girl
So won't you be my last girl
Hey first girl
Won't you be my last girl

Everybody know I'm still not over you
Not over you
And every time I lose a girlfriend I call you
Ya I call you
I never knew
I never knew that everything was falling through
That after all these years I'd still be calling you
