I guess we've passed the puppy love stage (love stage)  
you barely call my phone no more  
You told me work have been crazy lately  
like I'm not busy like I got nothing on my plate girl,  
now wait girl  
you know u messing up a good thing  
see I don't chase girls I erase girls  
when they do me like that , be careful or you just  
another xo, xo, xo, xo, xo, xo, xo, xo

You pretend like you don't love me( love, me)  
like you don't feel the same no more  
like it wouldn't even phase her to replace her  
like im not body like I can get another date girl  
now wait girl, you know you messing up a good thing  
see I don't chase girls I erase girls  
when they do me like that , now be careful or you just  
another xo, xo, xo, xo, xo, xo, xo, xo

Now three minutes is all I need to break yo heart,(  
break break) break yo heart ,  
Now three minutes is all I need to make you (make you  
make you) make you  
xo, xo, xo, xo, xo, xo, xo, xo
