"Overnight Job"

Visit "[Overnight Job](#)" on MotoLyrics.com

Get the money and run
Now's not the time to hang around
Overnight job it's an overnight job
Anymore for anymore
Think it over, you've always got to be
Just one more step ahead
Everyone said that it couldn't be done
And I know that's why you're here tonight
You've got everything that you need for the job
I hope that it all works out right.

Out on the streets at the dead of night
There's nobody else around
Overnight job it's an overnight job
Anymore for anymore
Think it over, you've always got to be
Just one more step ahead
Coz everyone said that it couldn't be done
And I know that's why you're here tonight
Over your shoulder the day's getting bolder
The shadows are fading away.

Because everyone's got it inside, just a little bit
somewhere

Overnight job it's an overnight job
Think it over, you've always got to be
Just one more step ahead
Everyone said that it couldn't be done
And I know that's why you are here tonight
Over your shoulder the day's getting bolder
The shadows are fading away.
