Hey mister light me a candle
So I can see this fallen man
Look into my eyes and tell me
What I can not understand
I have broken down
Sold my soul in town
Lost my way
And left my friends all behind me
Chorus
Round here I don't belong
But I can't seem to find
Where I come from
Don't know how I came to stay
But I don't belong
No I don't belong
Round here
Oh lady make me your lover
Let me taste what I can't see
Pull me deep into your ocean
Make a real man out of me
I am nothing more
Than I was before
Maybe you can show me
What I can be
Chorus
