"I Dig You"

Visit "[I Dig You](#)" on MotoLyrics.com

I dig you, I dig love, I dig God and everything above
And it's really not that hard
I dig peace, I dig free, I dig us and everything I see
And it's really not that hard

We build walls to keep each other out
We missed our call - it's not what it's about
We draw lines that keep us far apart
Instead of taking time to listen to our hearts

I dig light, I dig rain, I dig hope 'cos everything can
change

We build walls to keep each other out
We missed our call - it's not what it's about
Never take advice when you already know
Don't think twice - just let your love grow

I dig you, I dig love, I dig God and everything above
And it's really not that hard
I dig peace, I dig free, I dig us and everything I see
And it's really not that hard
