If you're the captain, I'd be the crew
'Cause I just love to take orders from you
You blow the bugle and I'll jump through
How I'd love to take orders from you

I know that rules were made for fools
That's one thing I have learned
But I'm going in for discipline
Wherever you're concerned

If you say kiss me, that's what I'll do
'Cause I just love to take orders from you

When someone tells me to march or to halt
My soul rebels, I'm at way to a fault
No rules or regulations when I obey
Then I met you and I knew right away

If you're the captain, I'd be the crew
'Cause I just love to take orders from you
You blow the bugle and I'll jump through
How I'd love to take orders from you

I know that rules were made for fools
That's one thing I have learned
But I'm going in for discipline
Wherever you're concerned

If you say kiss me, that's what I'll do
'Cause I just love to take orders from you
