We haven't met, and that's okay  
'Cause you will be asking for me one day

Don't want to wait in line  
The moment is mine believe me

Don't close your eyes  
'Cause it's a chance worth takin'  
And I think that I can shake it

I know where I stand  
I know who I am  
I would never run away when life gets bad  
It's everything I see  
Every part of me  
Gonna get what I deserve  
I got nerve

Electrified, I'm on a wire  
Gettin' together and we're on fire  
What I said, you heard  
Now I've got you spinning

Don't close your mind  
The words I use are open  
And I think that I can show you

I know where I stand  
I know who I am  
I would never run away when life gets bad  
It's everything I see  
Every part of me  
I know I can change the world, yeah, yeah, yeah  
I know what you like  
I know what you think  
Not afraid to stare you down until you blink  
It's everything I see  
Every part of me  
Gonna get what I deserve  
I got nerve

You... You need to discover

Who you can make you feel free  
And I, I need to uncover  
The part of you that's reaching out for me, hey

I know where I stand  
I know who I am  
I would never run away when life gets bad  
It's everything I see  
Every part of me  
I know I can change the world, yeah, yeah, yeah  
I know what you like  
I know what you think  
Not afraid to stare you down until you blink  
It's everything I see  
Every part of me  
Gonna get what I deserve  
I got nerve

I got nerve

I know what you like,  
I know what you think  
Not afraid to stare you down until you blink  
It's everything I see  
Every part of me  
Gonna get what I deserve  
(I got)  
I got nerve

You, you need to discover  
You make me feel free  
And I, I need to uncover  
The part of you that's reaching out for me

I know where I stand  
I know who I am  
I would never run away when life gets bad

It's everything I see  
Every part of me  
I know I can change the world  
Yeah, Yeah, Yeah

I know what ya like  
I know what ya think  
Not afraid to stare you down until you blink  
It's  
Everything you see  
Every part of me  
Gonna get what I deserve  
I got nerve
